**NEW MORE RELIABLE TECHNOLOGY by Waterline Controls® FOR SPECIFYING ENGINEERS  
WITH A TESTED & PROVEN TRACK RECORD in MRO APPLICATIONS for 10+ years.**

**Our controls can REPLACE ALL SENSOR & CONTROL TYPES in ALL water based applications.**

**We ARE NOT similar to float switches, capacitive, conductive, ultrasonic, or pressure transducers.  
We ARE more reliable, easy to operate, & last longer**

## **Benefits:**

- Permanently eliminate float switches
- Water quality does not matter
- Sensor will not plate, foul, or deteriorate
- Flexibility in design to meet any scenario
- High-voltage is not near water
- Little to no maintenance
- Never needs recalibration
- Stand-alone controls
- Connections for BMS, BAS, or fire pannel
- Less than 1% failure rate in the field
- Limited lifetime warranty
- Fully Commercialized

## **Features:**

- Dry contacts for BMS, BAS, or fire pannel
- Power relays for valves, pumps, etc.
- Intuitive LED indicators
- Optional temperature sensor controlled relay
- NEMA 4x control enclosure
- Controls can be mounted in equipment room w/ sensor wired remotely
- Intrinsically safe
- Color coded sensor rods & wires for intuitive installation
- Fully automated by microprocessor
- Push-button for relay test
- Only moving parts are replacable relays
- Modular construction
